Portfolio

Education

Presidency University

Bachelor of Technology in Computer Science – CGPA: 8.95

Sep 2021 – Jul 2025

Bangalore, Karnataka

Narayana Junior College, BIEAP

Physics, Chemistry, Mathematics – Percentage: 93%

Jun 2019 – May 2021

Tirupati, Andhra Pradesh

Narayana EM High School

High School SSC – CGPA: 10

Jun 2018 – Mar 2019

Tirupati, Andhra Pradesh

Relevant Coursework

- Artificial Intelligence
- Machine Learning
- Natural Language Processing
- Web Technologies
- Data Structures & Algorithms
- Generative AI & Automation

Projects

Travel Buddy | OpenWeatherMap API, NLP, AI Recommendations

Sep 2025

- Developed an AI-powered travel companion web app generating personalized itineraries and optimized routes using real-time location, weather, and crowd data.
- Implemented NLP review summarization and recommendations, providing travelers with concise, actionable insights.

AI Research Assistant | Python, Gemini AI, Multi-Agent Systems, NLP

Sep 2025

- Built a multi-agent AI system to research and synthesize topics into polished, human-like reports in minutes.
- Engineered planner, researcher, and synthesizer agents for accurate and structured information retrieval.
- Delivered a scalable dashboard enabling efficient generation of professional research reports.

AI Ethics & Bias Auditor | Python, RAG, LangChain, NLP, AI/ML

Aug 2025

- Built a RAG-powered AI auditor to detect ethical risks and biases in datasets and model outputs.
- Applied LangChain for real-time NLP analysis, identifying gender, racial, and language biases with actionable insights.
- Delivered interactive dashboards highlighting bias metrics to improve fairness, transparency, and accountability in AI systems.

Internship Experience

Viswam.ai (IIT Hyderabad)

Aug – Sep 2025

Summer AI Intern - Python, AI, LLMs, Prompt Engineering

Remote Bangalore

- Contributed to building Indic AI datasets and gained hands-on exposure to LLM fine-tuning, prompt engineering, and AI model evaluation pipelines.

Infosys Springboard

Sep 2024 – Feb 2025

Cohort-Based Intern - Python, Web Development, AI Tools

Remote Bangalore

- Completed structured training in Python, web development, and AI fundamentals, applying skills in collaborative mini-projects and hands-on exercises.

Technical Skills

Programming Language: Python

Frontend: HTML/CSS, JavaScript, React

Backend/Database: NodeJs, FastAPI, SQL, MongoDB

Publications

AI-Based Medicinal Plant Identifier – IJRTI

Feb 2024 - Aug 2025

- Developed a generative AI model to classify 300+ medicinal plant species from images with 95% accuracy.
- Applied deep learning and computer vision techniques for automated plant identification.

Avoid Crash CropLoss for Farmers – IJRTI

Dec 2024 - Jan 2025

- Built a GenAI-driven model using weather and soil datasets to predict crop yields, reducing losses by 10%.
- Leveraged machine learning, feature engineering, and predictive analytics for agricultural decision support.
